

Citra Cide

EPA N listed: The EPA registration for each disinfectant can be found on the product's label and specification and efficacy sheet. Citra Cide's EPA registration number is 47371-131-6885.

Covid-19 effective

This disinfectant has been approved by the CDC and the EPA in the fight against COVID-19.

Short dwell times

It doesn't take long for this chemical to effectively clean a given area. The EPA recommends a 10 minute dwell time for effective disinfection. Just 10 minutes to get back to using a given area free of concern.

Food safe

This chemical is safe to use around food and animals.

Super concentrate

A little goes a long way with Citra Cide. Its dilution ratios are 32:1 for a 10 minute kill time and 16:1 for a 1 minute kill time. Its cost per gallon is extremely low, making it a very cost-effective treatment.
