

PRODIGY HSR

The Prodigy HSR: Created specifically to handle rigorous demands of **Hard-Surface Cleaning and Restoration Professional**, the HSR has been engineered to provide five times the power and pressure of any other machine on the market today.

Restoration Power: With a 4.8 gallon per minute high pressure water pump (Two gallons more per minute than the Prodigy), three stainless steel heat exchangers (inside and out), a stainless steel exhaust and waste tank (to deal with the corrosive chemicals used in cleaning and decontamination), a larger pump and a bigger motor than before, there is no comparison. The **Prodigy HSR** stands alone as a powerful versatile truck mount machine you can buy.

The Hard Surface Monster: The increased pressure and heat of the HSR allows you to use Clean and Capture tools to clean carpets, stone, tile, grout, and also hydro jetting plumbing. All, in one machine.

State of the art technology: The **Prodigy HSR** includes the patented SOVC vacuum system along with 3 stainless steel heat exchangers capable of producing up to 12,000 PSI of cleaning power!

If you want to invest in the best truck mounted carpet cleaning and hard surface restoration machine on the market, you need this feature rich and industry leading technology known as the **Prodigy HSR**.

Prodigy HSR from Powerplus - Power made easy

Your One-Stop Source for every professional cleaning need.

The Prodigy HSR from Powerplus is the most power and versatile truck-mounted machine ever made.

Tile and Grout

Graffiti Removal

PRODIGY HSR

Use your Prodigy HSR for:

- Hard surface and stone cleaning
- Carpet, upholstery, dry and duct cleaning
- Fire and flood damage restoration
- Asbestos and mole abatement
- Bio-Hazard and hazmat decontamination
- Clean and Capture
- Pressure, graffiti and window washing
- Aviation and auto detailing
- Hydro-jetting and plumbing
- Raw sewage, waste, and mud disposal

Markets the HSR serves:

- Hard Surface and Stone Care, Floor Staining
- Contractors, Developers, Engineers, Excavating
- Fast Food Restaurants, Grocery Stores, Gas Stations
- Fire and Flood Damage and Restoration
- Homes, Hotels, Property Management / Owners
- Schools, Carpet Cleaning
- Federal and State Agencies, Convention Centers, Arenas, Industrial Parks
- Manufacturers, Moving Companies, Painters, Pavers, Roofers
- Storage Facilities, Railroads, Trucking and Waste Disposal.

Performance Features

Pressure: 12,000 psi system with 3000psi at the jet

Pump Volume: 4.8 gallons per minute

Physical Specifications (standard)

Dimensions: 34.5" W x 40" H x 42" D (includes waste tank)

Weight: 470 lbs (with tank)

Frame: Powder-coated high-strength steel

Engine: 23 HP OHV

Water Pump: 4.8 GPM

Heating System: 3 Stainless steel Heat Exchangers

Recovery Tank: 70 gallon heavy-duty steel tank

Hoses: 125 ft. vacuum + 125 ft. solution hoses

Ignition: Electronic ignition

Instruments: Marine gauges

Wand: S-bend stainless steel wand w/bypass

Hoses: 275 ft of vacuum and solution hoses

Reel: 350 ft of dual reels

Option Packages:

Auto Pump Out

Liquid cooled engine

Silencing package

Water softeners

Financial & Ownership Solutions:

- Payment plans
- Training videos
- Long-term rentals
- On-site service

what is SOVC™?

SOVC* is a revolutionary patented product from Tsunami Cleaning Technologies that doubles the suction power of any truck mount and cuts dry times by 50%.

How does SOVC do that? SOVC digitally controls the pressure relief valve common to all truck mounts. Typical pressure relief valves begin to open as soon you begin cleaning. As the chart below illustrates, the more stress you put on the truck mount (to achieve a shorter dry time), the more the relief valve opens and the greater the loss of suction power, or CFMs.

The SOVC kit replaces the manual relief valve with an electronically-controlled valve system that safely maximizes the suction power of your truck mount. As the chart below shows, SOVC delivers a massive power boost and cuts dry times dramatically.

*SOVC or Solenoid Operated Valve Control. SOVC is a trademark of Tsunami Cleaning Technologies. U.S. patent nos. 5,987,696 and 6,176,940B1. Multiple foreign patents pending
